

stewart[®]

RATE SCHEDULE
for the
COMMONWEALTH OF MASSACHUSETTS

Effective August 1, 2011

BLANK INSIDE FRONT COVER

Premium Calculations:

1. You must first determine what type of policy (s) you are issuing:
 - a) Owner's (Enhanced or Standard)
 - b) Loan (Enhanced or Standard)
 - c) Simultaneous Owner's and Loan

2. Next you must determine the **Amount of Coverage**:
 - a) **Owner's**: Amount of Coverage should be the purchase price paid for the Property. In the event of new construction, the Amount of Coverage should be based upon the appraised value as determined by the Lender.
 - b) **Loan**: Amount of Coverage is the loan (Mortgage) amount. (See special circumstances to this general rule as follows):
 - (i) **Negative Amortization Loans**: The lender frequently requires that the Amount of Coverage be greater than the Amount of the Mortgage. When issuing a Policy for a Negative Amortization Loan, the Lender will frequently request that the Policy be issued in an amount equal to 110% of the face value of the Mortgage. In this instance, you have 2 options: (a) issue an Enhanced Loan Policy which automatically provides coverage for up to 125% of the Loan Amount; or (b) issue a Standard Policy in the amount of 110% of the Mortgage amount. The Amount of Coverage will be based upon the increased Amount of Coverage requested. **Note**: The Amount of Policy will not be the same as the amount of the Mortgage listed on Schedule A. You should also check the box on Schedule A for the attachment of an ALTA 6.2 Negative Amortization Endorsement.
 - (ii) **Reverse Mortgage Loans**: Lenders frequently request that the Policy be issued in an amount equal to an amount up to 150% of the face value of the Mortgage. Please make sure to review the Lender's closing instructions carefully as each Lender's requirements differ. In this instance, you should issue the Policy for the increased Amount of Coverage requested. **Note**: The Amount of Policy will not be the same as the amount of the Mortgage listed on Schedule A. **Note**: You should also attach the applicable Reverse Mortgage Endorsement.

3. If issuing a Simultaneous Owner's and Loan Policy, the formula for determining the total amount of premium will generally be determined based upon the Owner's Policy (purchase price or in the event of a construction loan, the appraised value of the property), plus an additional \$175.00 simultaneous fee. You can locate the total premium to be charged in the column labeled "Simultaneous Owner's and Loan Policies".

If issuing a Simultaneous Owner's and Loan Policy, where the loan amount is higher than the purchase price or appraised value, you would first calculate the Owner's premium and then add the \$175.00 simultaneous issue fee. In addition to that, you would have to add in the additional premium for the amount of the Loan Policy that exceeds the Owner's Policy.

EXAMPLE:

Owner's Policy: \$200,000.00

Loan Policy: \$250,000.00

Premium calculated as follows:

Enhanced Owner's Policy premium with simultaneous fee:	\$ 975.00
Additional Premium for Standard Loan Policy (Loan Policy Exceeds Owner's Policy by \$50,000.00):	\$ 125.00
Total premium for this example	\$1,100.00

Simultaneous Loan Policies:

In order to calculate the premium when issuing an Owner's Policy with a first and second Mortgage, use the Owner's amount for the "Amount of Coverage". Using the premium which is located in the "Simultaneous Owner's & Loan Policy" column, add an additional \$175.00 to cover the cost of the premium for the second Mortgage. The total of these two amounts is the appropriate premium for all three policies to be issued. This premium calculation is applicable for the issuance of second Loan Policies for either Second Mortgages or Home Equity Line Mortgages. **NOTE: If no Owner's Policy is issued with the two Mortgages, a full premium should be charged for each Loan Policy.**

Non-Simultaneous Owner's and Loan Policies:

If an Owner's Policy is requested within ninety (90) days of the issuance of a Stewart Title Guaranty Company Loan Policy for the same property, a credit equal to the amount of the premium paid for the Loan Policy will be given. **NOTE: The Owner's Policy should be issued as of the date of the initial transaction.** If a Loan Policy is requested within ninety (90) days of the issuance of a Stewart Title Guaranty Company Owner's Policy for the same property, the simultaneous charge will be applicable.

Premium Rates for Standard Policies:

Loan Policy Only:

\$1,000 - \$39,000 minimum premium charge of \$100.00

\$40,000 - \$2,000,000 = \$2.50 per thousand

Owner's Policy Only:

\$1,000 - \$39,000 minimum premium charge of \$146.00

\$40,000 - \$1,000,000 = \$3.65 per thousand

\$1,000,000 to \$2,000,000 = \$2.50 per thousand

Simultaneous Issue Rate:

The formula for determining the total amount of premium in connection with a simultaneous issue is as follows:

Owner's Policy Premium + \$175.00 (simultaneous issue fee)

Please note that the above is merely a formula for determining total premium in a simultaneous issue transaction. The actual premium associated with a Standard Loan Policy is determined as set forth above at the rate of \$2.50 per thousand.

In order to determine the actual cost of a Standard Owner's Policy in connection with a simultaneous issue transaction the following formula should be followed:

[Simultaneous Owner's and Loan Policy Cost] less [Loan Policy Only Cost] equals
Cost of Owner's Policy

EXAMPLE:

Purchase Price: \$500,000.00

Loan Amount: \$250,000.00

Cost of Standard Owner's Premium calculated as follows:

Standard Owner's Policy premium with simultaneous fee:	\$2,000.00
Less Standard Loan Policy premium	<u>\$ (625.00)</u>
Actual Cost of Owner's Policy for this example	\$1,375.00

Premium Rates for Enhanced Policies:

Loan Policy Only:

\$1,000 - \$39,000 minimum charge of \$110
\$40,000 - \$2,000,000 = \$2.75 per thousand

Owner's Policy Only:

\$1,000 - \$39,000 minimum charge of \$160
\$40,000 - \$1,000,000 = \$4.00 per thousand
\$1,000,000 to \$2,000,000 = \$2.75 per thousand

Simultaneous Issue Rate:

The formula for determining the total amount of premium in connection with a simultaneous issue is as follows:

Owner's Policy Premium + \$175.00 (simultaneous issue fee)

Please note that the above is merely a formula for determining total premium in a simultaneous issue transaction. The actual premium associated with an Enhanced Loan Policy is determined as set forth above at the rate of \$2.75 per thousand.

In order to determine the actual cost of an Enhanced Owner's Policy in connection with a simultaneous issue transaction the following formula should be followed:

[Simultaneous Owner's and Loan Policy Cost] less [Loan Policy Only Cost] equals
Cost of Owner's Policy

EXAMPLE:

Purchase Price: \$500,000.00
Loan Amount: \$250,000.00

Cost of Enhanced Owner's Premium calculated as follows:

Enhanced Owner's Policy premium with simultaneous fee:	\$2,175.00
Less Enhanced Loan Policy premium	<u>\$ (687.50)</u>
Actual Cost of Owner's Policy for this example	\$1,487.50

For rates over \$2 Million, please contact the legal department.

Refinance Rate

A refinance rate shall apply on all 1-4 family residential refinance transactions if the property is currently encumbered by a first mortgage held by an institutional lender recorded within the last 7 years. The refinance rate is based upon a credit of 40% off the regular policy premium.
